

MONDAY, MARCH 4, 1745.

Rome, February 15.

HE common Saying, that every State in Italy may learn News of its own Affairs from hence, seems to lose Ground at present; for our Politicians are daily more and more perplex'd, and know not what to think either of the Designs of the Spaniards, or of the Austrians. It is indeed a Fact out

Question, that not long ago the Count de Gages was the Point of entering upon Action; and we are since well furnish'd, that on the 7th of this Month he intend'd to have attack'd the Austrians in their Quarters. A short Truce however, when all Things were ready, and when Bread was distributed to the Soldiers, these were countermanded; but from what Motives, is the great Question. Some say, that M. de Canillac, who has the Management of the French Affairs here, receiv'd a Courier from his Court, with Advice, that most Christian Majesty could not but adhere to his Treaty made with the House of Lorraine for the Cession of Tuscany. Others pretend, that Countermarch came from quite another Quarter: we have it that there is, at the Bottom, a Correspondence between the Courts of Vienna and Naples; which induced the latter to declare, at last, positively the intended Invasion of that Country. Our last Account we formerly had, that the Two Regiments of Valquez and Marcelli, are order'd for Germany; and that on their leaving the Army, it will be consist of 10,000 Men. This is a Stroke of Power that we do not understand, especially at a Time, when it is known the King of Sardinia does not spare his Plate, and Jewels, in order to raise a timely sum for the Expenses of the approaching Campaign.

February 9. Our Court has for some Years been laboring with the Malecontents; but either its Power is now worn out, or it is now grown so secure, that it is able to show its Resentments without Apprehension. In Consequence of this Change of Temper, a Tribunal which has the Cognizance of such Affairs, have actually tried a certain Abbe, whose Name is Charles Maximilian Enfoira d'Arragon, and sent him to be drawn upon a Hurdle through the Streets of this City, and then hang'd for Treasonable Practices. One Jizzo, a Carmelite Friar, who was a too busy in handing about the Queen of Hungary's Brother of his is to bear him Company for Seven Months: But before they went to take their Seats on these Vessels, they were whipp'd thro' this City by the Hands of the common Hangman. Three others, of the same Crime, have been sent to as many different Gallies, to work on the Fortifications. The Count de Don Camillo Cappilari, formerly Counsellor of State, has been sentenc'd to perpetual Imprisonment. He has been given to Messieurs George Grimaldi, de Mauris, and Charles Giordino, who have long time in Prison, to prepare for their Trials; and it is generally believed that they will be capitally executed. We are a little surpriz'd at these Acts of Severity; and shall be more so, if the King confirms these Proceedings. However it must be own'd, that thus far Count de Gages has had a good Effect; there is no more amongst the Nobility, the Laws have their Force, Taxes are rais'd without murmuring, and the Court will be able to have all Things in Readiness for the ensuing Campaign, without having Recourse to extraordinary Methods.

February 21. Upon the 12th or 13th of this Month, a Body of 12,000 Prussians, with 20 Pieces of Cannon, advanced as far as Plomnitz, near Habelschwerd, in the County of Glatz. Lieutenant-General Wallis, who was posted there with a small Body of Austrians, having for some time made Head against them, was oblig'd to retire from thence to Mittelwald between Grulich and Gramsch, with the Loss of about 300 Men kill'd and wounded, and the Prussians lost near the same Number.

March 5. The Princess Royal of Sweden, who is carried, in the 5th Month of her Pregnancy, of a Child, and was at first thought to be in Danger of Life. But by our last Advices from Stockholm, she is 23d of last Month, her Royal Highness had then two tolerable Days. The same Mortality amongst the People which still continues in Holstein, has now spread itself in the County of Oldemburg.

Vienna, February 24. There is Advice, that the Bavarians from the Salza, and the Palatins and Hessians, are assembling; and that in Proportion as they advance towards the Austrians, the French advance in taking Possession of the Posts and Quarters left by the Hessians. General Bathiani will, it is thought, command in Italy; General Brown in Bavaria; and General Hagenbach in Tuscany; which last Country seems to be in imminent Danger, by the double Entry intended by the Spaniards from Fuligno and Viterbo.

Berlin, February 23. The Day before Yesterday Te Deum was sung here, under a Discharge of Cannon, for the Victory lately obtained over the Austrians in the County of Glatz. Horses are continually passing thro' this Place into Silesia, to remount the Cavalry there. It is said, that the Prussian Army, by the Spring, will be 50,000 strong. General Einsidel, the late Prussian Commandant at Prague, has been acquitted by the Council of War, and their Sentence is now before the King of Prussia for his Approbation.

Berlin, February 27. His Prussian Majesty gave Baron Erthal, the Elector of Mentz's Minister, his first Audience upon the 24th past; and the Day before Yesterday he was presented with the King's Picture set in Diamonds, valued at 4000 Crowns. Upon the 24th the French Minister, M. Valori, returned from Dresden. His Majesty's Departure for Silesia is deferred till the 4th of March.

Berlin, March 2. The King of Prussia's Departure to the Army is deferred to the 11th of this Month. M. Borch, one of the Ministers of State, returned the Day before Yesterday from Prussia. Some Companies of Grenadiers have, within these few Days, filed off towards Silesia, with several Horses from Ostfriesland, to remount the Cavalry. The King has confirmed the Sentence of the Court Martial for the Acquittal of General Einsidel.

Bonn, March 1. On the 27th past the Duke of Arenberg came hither to pay the Elector a Visit, and set out the next Morning for Neuwied, where he propos'd to be last Night. We have Advice, that the French Troops were posted upon the Rhine from Bingen to Mayence, and from thence to Frankfort and Aschaffenburg, in order to reserve their Communication with Openheim; and that the French assemble their Troops upon the Moselle. The Elector Palatine has order'd his Subjects not to pay any Contributions to the Duke of Arenberg.

Ghent, March 3. We have Advice, that 10,000 French Foot are march'd, in three Divisions, towards Germany; that the French are bringing into Furnes great Quantities of Ammunition and Artillery Stores, and erecting great Magazines there; and that they expect more Troops at that Place, Ipres, Dunkirk, and Bergue. And we also hear, that the French Commissaries took last Week a List of all the Peoples Names in the Suburbs of Furnes, who have Horses or Waggon, &c. and order'd them to be forthcoming when demanded, under Pain of Military Execution.

Hague, March 5. The German Post of Yesterday brought Letters from General Sommerfeldt, of the 28th past, N. S. with Advice, that he was then advanced as far as Lahnberg, and had made himself Master of several Magazines, which the French, in the Hurry of their Retreat, had not had Time to destroy. These last seem'd to design maintaining themselves upon the Maine; and gave out, that their Army was soon to be reinforced to 30 or 40,000 Men. Letters from Paris, arriv'd this Day, say, that the Prince of Conti was to arrive on the Rhine as Yesterday, in order to command the French Army there; and M. Maillebois was to go and take upon him the Command of that in Italy. Their Highnesses the Prince and Princess of Orange are still here, waiting till the Waters which they must pass, and especially the Zuyder-zee, be clear of Ice. Count Konigsegg is expected here daily from Vienna.

Extract of a private Letter from the Hague, dated March 10, 1745.

I take this Opportunity of giving you as early an Account as possible of a new Project that is talk'd of here, for compromising Affairs in Germany; and in regard to which, it is said, the Count de Loos has been sent from Dresden to Vienna and Munich. The Plan is this; the King of Poland, Elector of Saxony, is to be chosen Emperor; the young Arch-Duke of Austria, Joseph, is to be declared King of the Romans, and contracted to the Princess Maria Cunigonda, Daughter to his Polish Majesty; the Electoral Prince of Saxony is to be declared King of Poland, in the room of his Father; and the young Elector of Bavaria is to marry the Princess Royal and Electoral of Saxony, and submit his

Claim on the Austrian Succession to the Decision of the general Dyer of the States of the Empire. What Credit is due to this Project, I cannot pretend to say farther, than that many People, who are esteem'd great Politicians here, seem to give great Credit to it. Among other Papers that were seiz'd, when M. d'Agieu was made Prisoner of War, there is said to have been a Scheme for the Siege of Luxembourg; the taking which, at this time, was particularly lucky; the French having managed their Affairs with such Dexterity, that the Austrians were in so little Pain about the Forts, that Orders were actually given for marching the best Part of its Garrison into Germany.

They write from Paris, that as soon as the Rejoicings for the Marriage of the Dauphin are over, the Death of a certain Crown'd Head will be declared, which is supposed to be the King of Spain; and it is believed, that this Event was the true Cause that the Invasion of Tuscany did not take Place.

The same Letters say, that the Diamonds of the Lords and Ladies of the Court of Versailles, at the grand Ball on the 25th of last Month, were valued at 250 Millions, which is near 12 Millions Sterling; those of the Dauphin and Dauphiness alone were actually worth 45 Millions

THIS Medicine restrains, in a surprising Manner, all internal as well as external Hemorrhages, i. e. it infallibly and quickly stops all various Bleedings at the Nose or Gums, spitting or vomit Blood; also the immoderate Flux of the Hemorrhoidal Veins; bloody Urine or Stools, bleeding of a large Wound, (if used according to the plain Directions given with it) will appear by the Certificates of several Eminent Physicians and in the large Account of this Medicine, written by Doctor himself, and dedicated to the College of Physicians a little before his Death.

It keeps good for many Years, at Sea or on Shore, in all Climates; therefore must be universally Useful.
The Doctor not only obtaining his Majesty's Letters for the sole Vending of this most Excellent Medicine, also a Clause in a late Act of Parliament, exempting Medicine from the Inspection of the Censors of the College of Physicians, to which all other Medicines are liable.
N. B. The late Learned Dr. CHEYNE, in his last Piece, entitled The Natural Method of curing the Bleeding Body, &c. prefers EATON'S STYPTICK to all other Stypticks; and speaks of it as follows:—
'knows the agglutinating Quality of sweet Blood, comprehend it is to rise, that EATON'S Styptick is mild, softening Efficacy. It is more mild, and soft, than the mildest Steel Preparations, and to patch a Hole, or glew up a Rupture, or to give to the acrid and inflam'd flowing Blood of the Venous Relief, he is confirm'd in this by a Physician of great and Candor, who has great Opportunities of examining Cases, by his Practice in Midwifery. See p. 10.

The only short and infallible CURE
For the **HEMORRHOIDS** or **PILES** of
Kind, or in either Sex; and allowed
to be by the most eminent Physicians in Europe.

IT is a pleasant **ELECTUARY**, which
once infallibly cures the Piles, be they ever so long even after all other Means have failed, and that without any Trouble, Difficulty, or the least Confinement, or sharpest Pain, and most miserable Torture, it gives Relief, and almost miraculous Ease.

No sooner is it taken, scarcely, but all manner of Pain vanishes, as if by Incantment, and the Patient is as perfectly well and free from Pain, as if no such Pile had ever been, and this it not only accomplishes in the present, in all Persons whatsoever, but also, by subduing all Sharpness in the Blood and Juices, it prevents any Return of the Piles for the future, entirely to cure that Illness, and thereby prevent Pain and other direful Consequences, that cannot be imagined.

Thousands of Men and Women, who had for many more or less, been wretchedly afflicted with the Piles, at once been perfectly cured by this great Remedy, and no less Joy and Comfort than Admiration.
It is so safe, that a sucking Child might take it without inconvenience, for it never occasions the least Trouble or disorder, and is so very agreeable to take, as not to give the nicest Palate.
